Summary

Motivated Computer Science student with hands-on experience in full-stack web and mobile app development. Skilled in OOP, data structures, and agile project workflows, I deliver clean, scalable code and actively contribute to team goals. Passionate about learning and applying best practices to solve real-world problems, with a proven track record of meeting client expectations and maintaining **over 90% client satisfaction** in freelance projects. Eager to grow through a software development internship and contribute fresh ideas and technical skills to your team.

Education

COMSATS University Islamabad

Computer Science

September 2022 - Present

Bachelor of Science (BS)

Projects

Connect App with AI Integration

 <https://github.com/Saad-Dev13/ConnectApp.git>

- Integrated **Firebase Authentication**, **Firestore** for real-time data updates, and **Firebase Storage** for media uploads.
- Enabled features like **post updates**, **project sharing**, **video calls** using **Jitsi Meet** integration.
- Designed a **modular and scalable architecture** with responsive **Material UI** for smooth user experience.

Event Ease - Society Management Web App

 <https://github.com/Saad-Dev13/EventEase2.git>

- Developed backend RESTful APIs using **Node.js**, **Express**, and **MongoDB** with **Mongoose** for data validation.
- Implemented **user authentication** and **role-based access** with secure CRUD operations for event management.
- Designed a responsive front-end with **React**, enabling **dynamic event booking** and real-time user feedback.

Opalumpus – MERN Stack Travel & Tour Agency Web App

 <https://github.com/Saad-Dev13/Opalumpus.git>

- Developed complete **CRUD functionality** for trip listings via RESTful APIs using **Node.js**, **Express**, and **MongoDB**.
- Created a **secure admin dashboard** for managing trips and user data.
- Designed a **mobile-friendly React UI** focusing on smooth navigation and intuitive browsing of destinations.

Spotify Clone – Web UI Project (HTML/CSS)

 <https://github.com/HuzefaAbid/Spotify-Clone.git>

- Implemented using pure **HTML** and **CSS** with **Flexbox** and **Grid** for modern layouts.
- Replicated key UI components such as sidebar, playlists, and player controls for functional mimicry.

Simon Game – HTML, CSS & JavaScript

 <https://github.com/HuzefaAbid/Simon-Game.git>

- Developed game logic for **pattern generation**, **user input validation**, and **score tracking**.
- Structured UI with **HTML and CSS**, focusing on responsive design.
- Implemented full gameplay loop including restart and game progression.

Experience

Freelance

Sept 2022 - Present

Developer & Project Manager

- Led full-cycle development projects for private clients, delivering customized systems like **inventory tools, booking apps, and web-based portals** using **Java, C++, SQL, and MERN stack**.
- Managed client communication, requirement gathering, and team coordination to ensure timely delivery with clear documentation and smooth deployment.
- Applied advanced **OOP and DSA** principles to optimize performance, achieving up to **30% faster system responsiveness** for business tools.
- Maintained a **client satisfaction rate over 90%** by ensuring solutions met or exceeded expectations and provided ongoing support.

Computer Science Club (CSC)

March 2025 - Present

Director of Operations

COMSATS Islamabad, Pakistan

- Conducted structured interviews of **20+ technical** and **10+ non-technical** candidates to form a dynamic executive team.
- Managed **COMSICON**, an intra-university fest with **700+ registrations, 450+ participants, and 20+ competitions** in one week, coordinating with **8+ CS societies**.
- Oversaw operations by designing event workflows, evaluation rubrics, and task distribution plans—improving event execution and reducing delays by **30%**.

AWS Learning Club CUI

Mar 2025 – Present

Managing Director

COMSATS Islamabad, Pakistan

- Organized **3 on-campus** and **4 online workshops** in a single semester; recruited a fresh executive team through targeted interviews.
- Led a **20+ member** marketing and outreach team, increasing average event turnout by **65%**.
- Built collaborations with AWS speakers, ambassadors from other universities, and secured sponsorships through networking and pitch decks.
- Launched a **Mobile App Development Competition** with **50+ registrations** and organized **Code 2 Cloud** with **120+ participants**, handling outreach, logistics, and e-certificate delivery.

Certifications

Supervised Machine Learning: Regression and Classification

Feb 08, 2025
